

# BENEFITS

## OF SSBC'S TRUCK STOP BRAKE PROGRAM

Get better braking performance!

- 1 Multi-piston calipers make more brake power! Each caliper has stainless steel pistons, which resist corrosion and help insulate the brake fluid against fade-inducing heat.  **MADE IN USA**
- 2 Multi-piston design distributes the clamping force more evenly over the rotor vs. stock caliper, which decreases pad deflection and increases braking power.
- 3 Calipers are constructed from lightweight billet aluminum, which reduces unsprung weight and provides a smoother ride.
- 4 Visual Appeal: Calipers can be powder coated a variety of colors.
- 5 Turbo slots in the rotors help cool the rotor, which helps prevent warping, as well as keep the pads clean.
- 6 High quality rotors help cool the rotors and prevent warping.
- 7 Xtra Life plating on all performance rotors protects the rotor from rust and corrosion, improves appearance and extends the service life.
- 8 You no longer need to buy large, expensive wheels to be able to install performance brakes on your vehicle.
- 9 The biggest benefit of all - better braking performance and shorter stopping distances!

PERFORMANCE BRAKES SYSTEM & ROTORS

AMERICAN MADE QUALITY BRAKES FOR  
1/2, 3/4 & 1 TON FORD,  
DODGE, GM TRUCKS AND S.U.V.'S

# BIG BITE

Cross Drilled Rotors

Our Big Bite Cross Drilled Rotors are the toughest around!

Engineered to withstand the most extreme braking conditions.

The Big Bite Rotors typically run 200 degrees cooler than stock rotors.

Big Bite Rotors are available as an original equipment replacement or as an upgrade to any of the kits we offer.

1000'S OF APPLICATIONS!

# TRUCK STOP

The SSBC Truck Stop Program was created to meet the varied needs of today's truck and SUV owners. Regardless of wheel size, SSBC has a brake solution for all popular 1/2, 3/4 & 1 Ton trucks and SUV's. Products range from original equipment replacement pads and rotors to our 8 piston calipers and 15" Big Bite Rotors.

**SSBC**  
PERFORMANCE BRAKE SYSTEMS

Our TRUCK STOP performance disc brake program offers a wide variety of brake kits for every budget:

Simple stock size slotted rotor and pad upgrades that fit in your stock wheels.

Quick Change aluminum caliper upgrade kits that work with your existing stock size rotors and fit in your stock wheels.

Larger than stock 14" rotor upgrades that reuse the stock brake caliper for trucks using 18" or larger wheels.

Complete performance disc brake kits with our award-winning multi-piston aluminum calipers mated to either new stock size or 14" Turbo slotted and Xtra Life plated rotors for trucks using 18" or larger wheels.

# WE HAVE BIG TRUCK BRAKES

## BRAKE KITS

Kits with stock rotors will fit in your stock wheels, freeing you from the expense of buying larger wheels to install performance disc brakes. If you want or already have 18" or larger wheels, our kits with 14" rotors will fit perfectly.

**NEW**

3/4 AND 1 TON  
BIG ROTOR KITS

1/2 ton GM  
14" big rotor kit

- 1 Larger rotors mean more brake horsepower.
- 2 Fill the space behind the wheels.
- 3 Complete with everything you'll need including brackets & hardware.
- 4 Compatible with factory ABS and parking brake systems.

Optional: performance pads, Stainless Steel flex hoses  
\*exact contents vary based on vehicle and kit type.
